AMD9801E
AM +MD Antenna

- Integrate EAS anti-theft and metal detection functions together, double security prevention;
- Compared with adding an independent metal detection equipment, it is more cost-effective and space;
- It has the ability to detect metal-lined bags to prevent criminals from stealing goods and escaping without being discovered;
- The EAS alarm lights red and the metal detection alarm lights blue;
- High flexibility, accuracy, anti interference and stable performance;
- Superior Digital Signal Processing (DSP) technology;
- Upgraded smart chip with huge kernal processing and signal analyze system;
- Optional Remote Tuning Service and CCTV connection function;
- Design to operate low power consumption and environment friendly;
